September 2016 – July 2022

PROFILE

I'm a junior developer who is passionate about coding solutions that turn people's visions into working software. I feel most at home in an environment where the goals are set and expectations are clearly communicated so I can fulfil the requests to the best of my ability.

While my preference lies with programming, my experience with design allows for additional insight in the creation process for an overall smoother conversation and cooperation experience.

EXPERIENCE

- August 2024 & July – September 2025**
GB Foods Belgium - Puurs

Receptionist & Marketing Assistant

- 3 days per week – Worked the front desk reception taking and redirecting phone calls, greeting visitors, accepting and sending mail and other similar tasks
